Journal of Occupational Medicine
Vol. 30, January – December 1988

INDEX TO PAGES

According to monthly issues January – December

Pages	Month	Pages	Month
1–72	January	533–600	July
73–196	February	601–666	August
197–278	March	667–754	September
279–386	April	755–842	October
387–464	May	843–906	November
465–532	June	907–1000	December

SUBJECT INDEX

A

Abortion, spontaneous, semiconductor manufacturers, 543
Acrylonitrile, textile workers, cancer incidence, 813
Agricultural workers
  airways responsiveness, grain elevator workers, 613
  swine producers, respiratory symptoms and pulmonary function tests, 715
AIDS
  workplace discrimination, 321
  workplace guidelines, AOMA, 578
Air quality, enviromental tobacco smoke and (Letters), 272, 540
Airway, responsiveness, grain elevator workers, 613
Alcohol
  kinetics of workplace chemicals modified by, 214
  unemployment and, 246
  workplace discrimination, 321
Alumina, pulmonary disease related to, 328
Aluminum smelter workers, bladder cancer, compensation eligibility, 771
Alzheimer's disease, occupational risk factors and, 934
Ambulance personnel, carbon monoxide risk (Letter), 852
American Indians, normal spirometric values, 556
American Occupational Medical Association
  Committee Report, AIDS in the workplace: guidelines, 578
  proposed by-laws amendments, 266
  73rd Annual Meeting
    abstracts, 354
    exhibitors, 366
    schedule of events, 135
American Thoracic Society, spirometry standardization, update (Letter), 272
Arsenic, coal-fired boilers, 909
Asbestos workers
  chronic exposure, psychologic effects of risk status, 49
  laryngeal cancer and, epidemiologic evidence, 23
  medical surveillance, radiographic interpretation of asbestosis, 644
  mortality, time-related factors, textile workers, 517
  pleural disease and
    oblique chest roentgenogram detection, 681
    symptoms produced by, 345
  pulmonary functional impairment (Letter), 285
  spirometric abnormalities, effects of cigarette smoking, 228
Asbestosis
  non-shipyard electricians, 638
  radiographic interpretation, B-readers, 644
Assault, workplace, 483
Assembly operation, injury monitoring, case study, 43
Auto workers, mortality, bearing plant workers, 706

B

Back pain
  cause and prevention, nurses' beliefs, 797
  chronic, validation tests compared, 98
  predicament of (Editorial), 449
  working disability due to, follow-up study, Quebec, 502
Behavior, solvents and, construction painters, 116
Bile acids, serum, early liver impairment detection (Letter), 288
Bladder, cancer, compensation, aluminum reduction plants, 771
Blood pressure
  diastolic, job stress and, female hospital workers, 93
  screening, hypertension detection, 943
Blue collar workers, not exposed to respiratory hazards, lung volume values, 626
Boiler, coal-fired, arsenic exposure, 909
Book Reviews, 273
Burn injury, hydrofluoric acid, surgical treatment, 873

C

Cancer
  bladder, compensation eligibility, aluminum reduction plants, 771
  cluster, workplace investigations (Letter), 661
  colorectal, incidence, polypropylene workers, 438
  gastrointestinal, bearing plant workers, 706
  laryngeal, asbestos exposure, epidemiologic evidence, 23
  lung
    familial association, male farm workers, 55
    mortality, time-related factors, asbestos workers, 517
  occupational
    confounding bias, 617
    epidemiology, China, 968
    modernization and (Editorial), 975
    monitoring, oncogene protein approach, 399
  oil refinery workers and, treatment of subjects lost to follow-up (Letters), 89
  pancreatic, methylene chloride and (Letters), 475
  prostate, occupational risk, 523
  respiratory, lead arsenate and, orchardists, Washington State, 561
  retrospective incidence study, next-of-kin data accuracy, 348
  textile workers, dimethylformamide and/or acrylonitrile, 813
  vinyl chloride-related, mortality update, 648
Carbon disulfide, mortality, rayon industry, United States, 698
Carbon electrode workers, pneumoconiosis in, 887
Carbon monoxide, ambulance workers and (Letter), 852
Carpal tunnel syndrome, hand/wrist pain, female supermarket checkers (Letter), 537
Carpenters, mortality and morbidity, prospective study, heart program cohort, 879
Chelation, lead, short and 24-hour urine collection after, 420
Chemical
  exposure, farm workers, lung cancer, familial association, 55

photocopier, allergic eye reaction (Letters), 457
Chemical workers
cancer incidence, estimated by tumor registry, 443
hydrofluoric acid burn, surgical treatment, 873
Cholesterol, National Cholesterol Education Program, 826
Cigarette smoking
cancer and, next-of-kin data accuracy, 348
concomitant effect, asbestos workers, 228
confounding bias and, occupational cancer epidemiology, 617
indoor air quality and (Letter), 272
passive, pregnancy and (OM Forum), 762
polymer-fume fever and (Letter), 296
pulmonary fibrosis and, radiographic detection, 33
workplace policies, union member attitudes, 312
Company physician, testimony at legal proceedings, 405
Construction workers
mortality, trench cave-in, 552
torsion of the omentum, jackhammer operator, 892
Crime, violent, in the workplace, 483

D

Dermatitis
allergic contact, cycloaliphatic epoxy, 641
antistatic agent exposure, 252
Diabetes, noise-induced hearing loss and (Letters), 271
Dibromochloropropane, medical monitoring, mandatory masturbation ethics (Letters), 992
1,2-Dibromo-3-chloropropane, infertility and, semen quality surveillance, 336
Digital artery, hemodynamics, air hammer effects, foundry workers, 853
Dimethylformamide, textile workers, cancer incidence, 813
Discrimination, impaired worker, 321
Disease
exposure-related, potential for misleading associations, 224
infectious, transmission by photocopy machines, 762
psychiatric, disability and, 809
Drug
antineoplastic, acute occupational exposure, 984
screening
"for cause", 760
small businesses (Letter), 300
Dyspnea, pleural plaques and, asbestos-exposed workers, 345

E

Editorials, 113, 234, 449, 568, 587, 824, 975
Electricians, non-shipyard, asbestosis prevalence, 638
Electronics workers, anti-static agent-associated dermatitis, 252
Electron microscopist, allergic contact dermatitis, after cycloaliphatic epoxy exposure, 641
Emphysema, vinyl chloride-related, mortality update, 648
Employee
fitness program, factors associated with enrollment, 633
"for cause" drug screening, 760
medical records, confidentiality, 910
Employment, health effects, women, 977
Enzyme, liver, monitoring, isocyanate workers, 208
Epidemiology
misleading associations (Letters), 834
potential for misleading associations, 224
Epilepsy
focal, organic solvent exposure, 805
worker restrictions, 844
Epoxy, cycloaliphatic, allergic sensitization to, 641
Ethnic group, confounding bias and, occupational cancer epidemiology, 617
Ethylene oxide, carcinogenic hazards, risk assessment variability, 236
Exercise
employee fitness program, factors associated with enrollment, 633
stair climbing vs. treadmill, cardiorespiratory response, firefighters, 103
workplace, musculoskeletal symptoms and, 922
Exposure
disease and, potential for misleading associations, 224
toxic materials, overlooked cohorts, World War II era, 655
Eye, allergic reaction, photocopier chemicals (Letters), 457

F

Farmers, chemical exposure, retrospective study, male lung cancer patients, 55
Fibrosis, pulmonary, smoking and, 33
Firefighters
cardiorespiratory response, stair climbing vs. treadmill exercise, 103
female applicants, leg power characteristics, 433
Formaldehyde
acute overexposure, behavioral sensitization after, 565
lung cancer and, mortality reanalysis, 895
Foundry workers, vibration white finger disease, air hammer usage and, 853
Furniture industry, respiratory health effects, epidemiologic study, 959

G

Grain dust, airways responsiveness, grain elevator workers, 613

H

Handicap, discrimination considerations, 321
Hazard, individual risk, 570
Health care
utilization and cost, effect of periodic physical examination program, 949
workers, antineoplastic drug exposure, 984
Health maintenance organization, occupational medicine physicians and, 928
Health promotion
workplace programs
economic implications, 106
evaluation (Editorial), 113
factors associated with enrollment, 633
Health screening
mine workers, evaluation, South Africa, 580
nonoccupational, recommendations, 605
Hearing loss, noise-induced, diabetes and (Letters), 271
Heart
ischemic disease, mortality, police officers, 650
transplant, industrial employment after, 844
Herbicide, phenoxy acid, soft tissue sarcoma risk, Sweden, 801
Histamine release assay, anhydride sensitivity and, 785
Homicide, workplace, 483
Hospital workers, female, job stress and diastolic blood pressure, 93
Hydrofluoric acid, severe burn, surgical treatment, 873
bis-Hydroxyethyl-tallow amine, dermatitis due to, electronics workers, 252
Hypertension, detection, occupational blood pressure screening, 943

I

Immunization, entering housestaff physicians, 822
Infertility, semen quality, prospective surveillance, 336
Injury
back, working disability due to, follow-up study, Quebec, 502
industrial, monitoring, case study, 43
motor vehicle, municipal employees, 883
occupational, caused by violent crime, 483
return to work after, guidelines, 206
vibration-related, primary torsion of omentum, jackhammer operator, 892
Irritant, acute overexposure, behavioral sensitization after, 565
Isocyanate workers, liver enzyme monitoring, 208

L

Lead
absorption, lead naphthenate exposure and (Letter), 482
exposure, Alzheimer's disease and, case-control study, 934
urinary excretion, shortened collections after provocative chelation, 420
Lead arsenate, respiratory cancer and, orchardists, Washington State, 561
Lead naphthenate, lead absorption resulting from (Letter), 458, 482

Leg, power, female firefighter applicants, 433
Legal proceedings, company physician testimony, 405
Letters to the Editor, 10, 86, 661, 676, 834, 852, 992
Lithium battery, hazards, case report, 309
Liver
enzyme monitoring, isocyanate workers, 208
function, printing plant workers exposed to toluene, 791
impairment, detection by serum bile acids (Letter), 288
Liver function testing, false-positive results, reduction strategies, 693
Lung
cancer, mortality, formaldehyde exposure, 895
chronic disease, genetic screening, ethical issues, 493
disease, alumina-related, 328
functional impairment, asbestos and (Letter), 285
pleural plaques, smptoms produced by, 345
spirometric abnormalities, asbestos workers, smoking and nonsmoking, 228
volume, reference values, blue collar workers not exposed to respiratory hazards, 626

M

Mammography, work site recommendations, compliance, 40
Masturbation, mandatory, ethics (Letter), 992
Medical records, confidentiality, 910
Medication, concomitant, biologic monitoring bias caused by, 214
Meningioma, occupational risks (Letter), 14
Mensana Clinic back pain test, chronic back pain validation, compared with Minnesota multiphasic personality inventory, 98
Mental health
asbestos workers, chronic exposure, 49
care costs and utilization (Letter), 662
Mental illness, workers' compensation and (Letter), 459
Metal workers, mortality, after metalworking fluids and abrasive exposure, 706
Methylene chloride
human and animal risk comparisons (Letters), 18
pancreatic cancer and (Letters), 475
Methyl ethyl ketone, acetone and, combined exposure, adjusting the ratio (Letters), 676
Microelectronics workers, semiconductor manufacturers, spontaneous abortion, 543
Military personnel
mortality study, Army and Marine Corps veterans, Viet Nam, 412
shipboard women, premenstrual syndrome (Letter), 86
shipyard occupational medicine, early history, 28
toxic exposure during World War II, 655
Mine workers
periodic examinations, evaluation, South Africa, 580
pneumoconiosis, iron ore surface mining, Labrador, 780
respiratory symptoms and pulmonary function, iron ore mine, Sweden, 953
taconite, mortality, 506
Minnesota multiphase personality inventory
chronic back pain validation, compared with Mensana Clinic back pain test, 98
chronic pain duration, worker profiles, 809
Modernization, occupational cancer and (Editorial), 975
Monitoring, biologic, bias due to concomitant medication, 214
Mortality
analysis, treatment of subjects lost to follow-up, 60
occupational, United States, underreporting, 868
pesticide applicators, second follow-up, 429
retrospective cancer incidence study, next-of-kin data accuracy, 348
Viet Nam veterans, Army and Marine Corps, 412
Mortality and morbidity, prospective study, carpenters, heart program cohort, 879
Motor vehicle, occupational injury, municipal employees, 883
Musicians, perceived occupational stress, health and occupational correlates, 687
Myocardial infarction, acute, mortality, police officers, 650

N

Neck, musculoskeletal symptoms, effectiveness, workplace exercise program, 922
Neurotoxic exposure, conditioning of physical symptoms after, 684
Nuclear power workers, mortality, 988
Nurses, occupational back pain, attitudes and beliefs, 797

O

Obesity, morbidity prevalence, 589
Occupational medicine
career options, 776
disease recording criteria, 608
graduates, practice mode (Letter), 91
graduate training program, union-based rotation as part of (Editorial), 234
in deregulatory era, 425
personal health data, 570
physicians, nonindustrial settings, 928
residency training, management roles for physicians, 863
vanguard and rearguard, C. O. Sappington Memorial Lecture, 124
Occupational Medicine Forum, 605, 760, 844, 909
Odorant, acute overexposure, behavioral sensitization after, 565
Oil refinery workers, cancer risk, treatment of subjects lost to follow-up (Letters), 89
Organic brain syndrome, toluene exposure and, printing industry, 875
Overuse syndrome, differential diagnosis, upper limb pain, 966

P

Pain
abdominal, torsion of the omentum, jackhammer operator, 892
chronic, psychiatric disease and, 809
upper limb, overuse syndrome, differential diagnosis, 966
Painters, solvent exposure, neurobehavioral effects, 116
People and Events, 63, 188, 268, 379, 459, 527, 592, 664, 721, 830
Pesticide applicators
mortality, second follow-up, 429
respiratory cancer and, lead arsenate, orchardists, 561
soft tissue sarcoma risk, Sweden, 801
Phosphine gas, acute overexposure, behavioral sensitization after, 565
Photocopy machines, infectious disease transmission, 762
Phthalic anhydride, allergic response, in vitro immunologic studies, 785
Physicians
housestaff, immunization status, 822
management roles, resident training, 863
Pleural fibrosis, oblique chest roentgenogram detection, asbestos-exposed workers, 681
Pleural plaques, symptoms produced by, asbestos-exposed workers, 345
Pneumoconiosis
carbon electrode workers, 887
iron ore surface mining, Labrador, 780
Police officers, mortality, ischemic heart disease, 650
Polymer-fume fever, associated with smoking and mold-release spray (Letter), 296
Polypropylene workers, colorectal cancer incidence, evaluation, 438
Polytetrafluoroethylene, polymer-fume fever and (Letter), 296
Pregnancy
passive smoking and, 762
workplace discrimination, 321
Premenstrual syndrome, sick call utilization and, Navy shipboard women (Letter), 86
Printing industry
toluene exposure
liver structure and function, 791
organic brain syndrome and, psychiatric study, 875
Prolactin, styrene exposure and (Letter), 481

Protein, oncogene, occupational cancer monitoring and, 399
Pulmonary function
furniture industry, epidemiologic study, 959
iron ore workers, follow-up study, Sweden :953
tests, alterations, swine producers, Saskatchewan, 715

R

Radiography
asbestos surveillance, B-readers and, 644
pulmonary fibrosis detected by, human and animal studies, 33
Rape, workplace, 483
Rayon industry, mortality, United States, 698
Reaction time, pregnant and nonpregnant women, 541
Respiration
dysfunction, swine confinement workers, 715
furniture industry, epidemiologic study, 959
iron ore workers, follow-up study, Sweden, 953
protection, during abrasive blasting, 917
Respirators, effects on respiratory timing and psychophysiologic load sensitivity, 256
Roentgenogram, oblique chest, pleural disease detection, asbestos-exposed workers, 681
Rubber workers, phenolic antioxidant byproducts, vitiligo due to, 512

S

Sandblasting, silicosis, contributing factors, 917
Sarcoma, soft tissue, pesticide applicators, Sweden, 801
Screening
blood pressure, hypertension detection, 943
genetic, chronic lung disease, ethical issues, 493
silicosis, mini X-ray (Letters), 10
Selected Reviews from the Literature, 6, 76, 200, 283, 390, 469, 672
Semen, quality, prospective surveillance, 336
Shipyard personnel, occupational medicine, early history, US Navy, 28
Silicosis
mini X-ray screening for (Letters), 10
sandblasters', contributing factors, 917
Skin disease, vitiligo, rubber exposure, 512
Smoking: *see* Cigarette smoking
Social workers, suicide risk, Rhode Island, 211
Socioeconomic status, confounding bias and, occupational cancer epidemiology, 617
Solvent
exposure, concomitant medication and, 214
mixed, adjusting the ratio (Letters), 676
neurobehavioral effects, construction painters, 116
organic
Alzheimer's disease and, case-control study, 934
focal epilepsy and, 805
Spine, lumbar, x-ray examination, 202
Spirometry
normal values, American Indians, 556
standardization, American Thoracic Society update (Letter), 272
Steroid, epidural injection, work status and response to (Letters), 12
Strength, upper extremity, pregnant and nonpregnant women, 541
Stress
diastolic blood pressure and, female hospital workers, 93
health and occupational correlates, symphony orchestra musicians, 687
Styrene, prolactin levels and (Letter), 481
Suicide, social workers, Rhode Island, 211
Supermarker checkers, female, carpal tunnel syndrome (Letter), 537
Surveillance, cumulative trauma disorders, workers' compensation claims and, 488

T

Taconite, worker mortality, 506
Tenosynovitis, surveillance, workers' compensation claims data, 488
Tetrachlorophthalic anhydride, allergic response, in vitro immunologic studies, 785
Textile workers
asbestos, mortality, time-related factors, 517
dimethylformamide and/or acrylonitrile exposure
cancer incidence, 813
mortality study, 819
rayon industry mortality, United States, 698
Titanium dioxide, epidemiological study of workers exposed to, 937
Tobacco, environmental smoke, indoor air quality and (Letter), 540
Toluene
hepatic effects, printing plant workers, 791
organic brain syndrome and, printing industry, 875
Trauma, cumulative disorders, surveillance, workers' compensation claims, 488
Tumor registry, population-based, cancer incidence estimation, chemical workers, 443

U

Unemployment, alcohol abuse and, 246
Upper limb, musculoskeletal symptoms, effectiveness, workplace exercise program, 922

V

Vibration white finger disease, air hammer effects, foundry workers, 853
Video display terminal, McCollough effect (Letter), 536
Vinyl chloride, mortality study, update, 648
Vitiligo, phenolic antioxidant byproducts, rubber workers, 512

W

Women
carpal tunnel syndrome, female supermarker checkers (Letter), 537
effects of labor force participation, 977
leg power, firefighter applicants, 433
mammography recommendations, compliance, 40
premenstrual syndrome, shipboard (Letter), 86
reaction time and strength, pregnant and nonpregnant women, 451
spontaneous abortion, semiconductor manufacturers, 543
Work absence, after injury, guidelines, 206
Workers' compensation
claims data, surveillance, cumulative trauma disorders, 488
eligibility, bladder cancer victims, aluminum smelting plants, 771
psychiatric disorders and (Letter), 459
Workplace
exercise program, musculoskeletal symptoms and, 922
health promotion programs
economic implications, 106
economics (Editorial), 824
evaluation (Editorial), 113
mammography recommendations, compliance, 40
physical examination program, effect on group health care utilization and cost, 949
smoking policies, union member attitudes, 312
World War II, toxic exposure during, overlooked cohorts, 655

X

X-Ray, lumbar spine, 202
